#### INDEPENDENT AUDITORS' REPORT

To the West Memphis Utility Commission West Memphis, Arkansas

#### Report on the Financial Statements

We have audited the accompanying financial statements of the West Memphis Utility Department, an enterprise fund of the City of West Memphis, Arkansas, which comprise the statements of net position as of December 31, 2017 and 2016, the related statements of revenues, expenses and changes in net position and cash flows for the years then ended, and the related notes to the financial statements, (collectively, financial statements).

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Department's preparation and fair presentation of the financial

statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Basis of Qualified Opinion**

As discussed in Note A to the financial statements, the Department's investments in property, plant and equipment and the related allowances cannot presently be determined due to the insufficient historical records. The Department's records do not permit the application of adequate alternative procedures to verify the cost of property, plant and equipment.

#### **Qualified Opinion**

In our opinion, except for the effect of such adjustments, if any, with respect to the investment in property, plant and equipment, and related allowances, the financial statements referred to above present fairly, in all material respects, the financial position of the West Memphis Utility Department as of December 31, 2017 and 2016, and the results of its operations and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

#### **Emphasis of Matter**

As discussed in Note A, the financial statements present only the West Memphis Utility Department, and do not purport to, and do not, present fairly the financial position of the City of West Memphis, Arkansas, as of December 31, 2017 and 2016, and the changes in its financial position for the years then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

#### **Other Matters**

#### Other Information

Our audits of the financial statements of the West Memphis Utility Department, for the years ended December 31, 2017 and 2016, were intended primarily for the purpose of formulating an opinion on the basic financial statements taken as a whole. The additional information presented on pages 19 and 20 is presented for the purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the examination of the basic financial statements and, accordingly, we express no opinion on it.

#### Required Supplementary Information

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

West Memphis, Arkansas Jackson, Howell E. Associates, PLIC October 19, 2018

#### **NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

#### **Nature of the Operations**

The West Memphis Utility Department (the "Department"), an enterprise fund of the City of West Memphis, Arkansas provides electric, water and sewer services for the City. The current West Memphis Utility Commission has the authority to recommend electric, water and sewer rates to the City Council which has final authority for approving utility rates. The Department purchases energy from NRG Energy.

#### **Governmental Accounting Standards**

The financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America. The Governmental Accounting Standards Board ("GASB") is the established and recognized standard-setting body for governmental accounting and financial reporting. The GASB periodically issues new or revised standards that are implemented by the Department.

Pursuant to GASB Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, the Department applies all applicable GASB pronouncements as well as Financial Accounting Standards Board ("FASB") Statements and Interpretations, Accounting Principles Board ("APB") Opinions, and Accounting Research Bulletins ("ARBs") issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, which were codified into a single source for governmental standards.

#### Measurement Focus, Basis of Accounting and Financial Statement Presentation

The Department's financial statements are reported using the economic resource measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Interfund items and transactions between the electric, water and sewer funds have been eliminated.

#### Fair Value of Financial Instruments

The Department's financial instruments include cash and cash equivalents, certificates of deposit, accounts receivable and accounts payable. The Department's estimate of fair value of all financial instruments does not differ materially from the aggregate carrying value of its financial instruments recorded in the accompanying statement of net position. The carrying amount of these financial instruments approximate fair value because of the short maturity of these investments.

#### Cash and Cash Equivalents

For purposes of the statements of cash flows, the Department considers all liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

#### **Short-term Investments**

Short-term investments are stated at cost unless there is an indication of permanent impairment of value, in which case the adjustment to market value is included in results of operations. Interest income is accrued as earned.

#### Accounts Receivable

Account receivable is recorded at the amount the Department expects to collect on balances outstanding at year-end. An allowance for uncollectible accounts is estimated and recorded based on the Department's historical bad debt experience and on management's judgment. The allowance for uncollectible accounts was \$500,000 on December 31, 2017, and December 31, 2016.

#### **Inventories**

Inventories consist of materials and supplies for the following:

••	<u>2017</u>	<u>2016</u>
Electric Department	\$ 512,954	\$ 593,010
Water Department	75,557	80,357
Sewer Department	9,591	9,813
Gas and Oil	30,769	23,714
Independence - Coal Stockpile	398,629	532,061
Independence - Materials and supplies	158,528	146,951
White Bluff - Coal Stockpile	368,900	595,846
White Bluff - Materials and supplies	203,381	239,487
Total	<u>\$1,758,309</u>	<u>\$2,221,239</u>

Inventories are stated at the lower of cost or market. Cost is determined using the average cost method.

#### Capital Assets

Capital assets, which include property, plant and equipment are stated at cost. Expenditures for maintenance and repairs are expensed when incurred. Additions, major improvements and replacements of units are capitalized and depreciated on a straight-line basis over the estimated useful lives of the various classes as follows:

	<u>Years</u>
Buildings	40
Furniture, fixtures and equipment	6 - 10
Plant in service	20 - 50
Investment in electric generating plant	27 - 30

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

#### **Capital Assets - continued**

Costs and related allowances for depreciation of assets sold or otherwise retired are eliminated from the asset and accumulated depreciation accounts where detail property records are available.

The Department's detailed property, plant and equipment records do not provide sufficient historical detail to determine the cost of individual assets. Due to this inadequacy, it is not always possible to determine the historical cost of property, plant and equipment to be retired. Therefore, certain assets have not been removed from the books when retired.

#### Net position

Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources on the Department's financial statements. Net position is classified in the following categories:

- 1. Net investment in capital assets This amount consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by outstanding debt that is attributed to the acquisition, construction, or improvement of those assets.
- 2. Restricted net position This amount is restricted by creditors, grantors, contributors, or laws or regulations of the government.
- 3. Unrestricted net position This amount is the net position that does not meet the definition of "net investment of capital assets" or "restricted net position".

#### Classification of Revenues and Expense

As an enterprise (proprietary) fund, the Department classifies its revenues and expenses into the following classifications: operating revenue, operating expenses, non-operating revenue and non-operating expenses.

Operating revenue and expenses are deemed as revenues realized by the Department in exchange for providing its primary services for electric, water, sewer and other charges. Non-operating revenues are those derived from the investment of cash reserves and from entities other than customers and other ancillary sources. Non-operating expenses include those related to bond costs and amortization expenses.

#### Revenues

Revenues are included in income as services are delivered. The Utility Department reads customers' meter that will normally span a month; i.e., January 15 would include services delivered but not billed for 15 days in December. Included in the accounts receivable at December 31, 2017 and 2016, was an estimate for these unbilled services totaling \$1,364,989 and \$1,126,436, respectively.

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

#### **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual amounts could differ from these estimates.

#### **Compensated Absences**

Employees of the Department are entitled to pay for compensated absences depending on job classification, length of service, and other factors. It is the Department's policy to recognize the cost of compensated absences when actually paid to the employees.

#### **Subsequent Events**

The Company has evaluated events and transactions that occurred between December 31, 2017, and October 19, 2018, which is the date that financial statements were available to be issued, for possible recognition or disclosure in the financial statements

#### **NOTE B - CASH AND SHORT-TERM INVESTMENTS**

The Treasurer of West Memphis Utility Commission is authorized by the State of Arkansas Statutes to invest excess cash balances in short-term investments. At December 31, 2017 and 2016, cash and short-term investments are listed below:

	2017		20:	16
	Restricted	<b>Unrestricted</b>	Restricted	<u>Unrestricted</u>
CASH	\$10,501,347	\$ 5,142,468	\$11,260,083	\$ 4,312,366
INVESTMENTS: Certificates of Deposit	2,315,452	13,029,252	2,290,360	12,917,557
	<u>\$12,816,799</u>	<u>\$18,171,720</u>	<u>\$13,550,443</u>	<u>\$17,229,923</u>

Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. The Department's deposit policy for custodial credit risk requires compliance with the provisions of state law.

State law requires collateralization of all deposits with federal depository insurance; a surety bond; U.S. Treasury and U.S. agencies and instrumentalities bonds or other obligations; bonds of the State of Arkansas or by bonds of a political subdivision thereof which has never defaulted on any of its obligations.

At December 31, 2017 and 2016, none of the Department's bank balances of \$21,286,630 and \$21,333,548, respectively, were exposed to custodial credit risk.

#### NOTE B - CASH AND SHORT-TERM INVESTMENTS - CONTINUED

State law generally requires that municipal funds be deposited in federally insured banks located in the State of Arkansas. The municipal deposits may be in the form of checking accounts, savings accounts, and time deposits. Public funds may be invested in eligible investment securities having a maturity of no longer than 5 years from the date of acquisition unless, as documented at the time of acquisition, the investment is to fund or support a specific purpose and there are no expectations that the investment will be sold before maturity; an Arkansas bank certificate of deposit; an account established by a local government joint investment trust; or an Arkansas financial institution repurchase agreement for eligible investment securities in which the seller agrees to repurchase the investment at a price including interest earned during the holding period as determined by the repurchase agreement.

#### NOTE C - INVESTMENT IN GENERATING PLANTS

In 1980, the Department entered into an Ownership Agreement with Entergy whereby it purchased a 1% interest in two fossil fuel electric generating plants in Arkansas, one at White Bluff and one in Independence County. Both generating plants include two fully operational generating power units. The Department financed these purchases through the issuance of revenue bonds (See Note E).

As a party to the Ownership Agreement, the Department was required to pay its 1% share of the construction costs of the plants, as incurred by Entergy and as defined in the Agreement. After commercial operation of the plants began, the Department was also responsible for its 1% share of additions or replacements at each plant. The amounts recorded (including capitalized interest), of \$12,283,016 and \$11,421,526 for White Bluff and Independence, respectively, represent the Department's 1% share of plant construction cost.

The Department is also a party to an Operating Agreement with Entergy whereby it has agreed to pay 1% of the operating costs (mainly operations and maintenance expenses, not including fuel) of the plants. Furthermore, the Department also pays for 1% of the coal purchased by the plants and this amount is included in inventory on the accompanying balance sheets.

These agreements entitle the Department to 1% of the net generating capacity and energy of the plants, which is delivered to West Memphis in accordance with a transmission agreement.

#### **NOTE D - RESTRICTED ASSETS**

Restricted cash and investments represent amounts required to be maintained by agreements related to the bond issue and deposits received from customers.

#### **NOTE E - REVENUE BONDS PAYABLE**

In November 2009, the Department issued \$10,620,000 of the Public Utility System Revenue Bond, Series 2009. Principal payments are due annually in increasing amounts over 18 years beginning in 2010. Interest is payable semi-annually. The bond has various interest rates ranging from 2.0 - 4.5% dependent upon the maturity date.

Changes in long-term debt:

	Balance			Balance
	<b>December 31, 2016</b>	<u>Issued</u>	<b>Retired</b>	<b>December 31, 2017</b>
Bond payable	\$7,710,000	\$ -	\$465,000	\$7,245,000

Total long-term debt principal and interest payments are as follows:

Year Ended December 31,	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2018	\$ 480,000	\$ 303,375	\$ 783,375
2019	500,000	283,375	783,375
2020	520,000	266,625	786,625
2021	540,000	247,125	787,125
2022	560,000	224,985	784,985
2023-2027	3,175,000	753,193	3,928,193
2028-2029	1,470,000	99,900	1,569,900
	<u>\$7,245,000</u>	<u>\$2,178,578</u>	<u>\$9,423,578</u>

#### **NOTE F - RELATIONSHIPS WITH THE CITY**

The Department is one of a number of departments and/or funds of the City of West Memphis established for a specific purpose. General services, such as personnel, data processing, financial administration and legal services are provided to the Department by the City. The costs associated with providing these services are charged to the Department by the City. The City also charges the Department an amount in lieu of franchise taxes.

The Department, as a convenience to customers, includes the fees for city-provided garbage collection in its monthly customer billings. These fees are remitted to the Sanitation Department monthly and are not reflected in the accompanying financial statements.

#### NOTE G - INTERGOVERNMENTAL BALANCES

During the course of its operations, the Department has numerous transactions between funds to finance operations, provide services, construct assets and service debt. To the extent that certain transactions between funds have not been paid or received as of December 31, 2017, balances of interfund amounts receivable or payable have been recorded as "intergovernmental receivables' payables". All interfund balances are expected to be paid within one year.

#### **NOTE H - RISK MANAGEMENT**

The Utility is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to independent contractors and natural disasters, all of which is satisfactorily insured by general liability service. Commercial insurance policies are also obtained for other risks of loss, including workers' compensation. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years.

#### **NOTE I - CONTINGENCY**

The City of West Memphis is involved in a number of lawsuits arising in the ordinary course of business. None of the lawsuits are directly related to the West Memphis Utility Department.

#### **NOTE J - PENSION PLAN**

In January 1977, the City established a defined contribution pension plan for all non-uniformed employees. The City contributes 6% of each participant's annual salary, and employees can also contribute a voluntary amount of not less than 2% of his/her regular pay to the plan. Participants vest in the employer's contribution at a rate of 20% per year. Eligibility commences one year from date of employment.

Employees have the option to invest the funds in their account. Employees are entitled only to the funds deposited by them and on their behalf; therefore, there is no unfunded liability.

The amount contributed to the pension plan and expensed by the Department was \$165,468 and \$180,834 for the years ended December 31, 2017 and 2016, respectively.

#### **NOTE K - MAJOR VENDORS**

Purchases for the year ended December 31, 2017 and 2016, include purchases from two major vendors.

	2017		20	16
	<b>Amount</b>	Percent	Amount	<u>Percent</u>
Purchases from:				
Vendor A	\$12,393,592	99.84 %	\$12,890,677	97.69%
Accounts Payable	:			
Vendor A	\$1,156,354	79.18%	\$1,081,493	58.06%
Vendor B	176,872	12.11%	65,656	3.52%
Vendor C	-	-	395,692	21.24%

#### **NOTE L - MISO INTEGRATION**

West Memphis Utility Department is a member of the Mid-Continent Independent System Operator (MISO) system. MISO is an Independent System Operator (ISO) and a Regional Transmission Organization (RTO) that offers open access transmission, monitors the high-voltage transmission grid and operates a Day-2 energy market for electric utilities in the region.

SUPPLEMENTARY INFORMATION
