### **PURPOSE OF THIS REPORT**

This report identifies projects in the West Memphis Metropolitan Planning Area for which Federal funds were obligated between October 1, 2019, and September 30, 2020 (Federal Fiscal Year 2020). Obligation of funds reflects the Federal government’s commitment to pay or reimburse the State of Arkansas and/or local entities for the federal share of a project’s eligible costs. Obligation of funds does not necessarily imply that work on a project began in the year of obligation. Additionally, the amount of Federal funds obligated may not be equal to the total cost of a project, which may also include commitments from the State of Arkansas or local entities.

This report is being published pursuant to 23 USC § 134, 49 USC § 5304, 23 CFR § 450 and 49 CFR § 613, which require the preparation of an annual list of projects for which Federal funds were obligated in the previous federal fiscal year. The list of FHWA obligated projects includes highway projects described by location, phase and the amount of federal funds obligated; and the list of FTA obligated projects includes transit projects described by recipient, the type of assistance received, and the amount of federal funds obligated. Transportation projects undertaken without the use of federal funds are not identified in either list.
